

Theme: Digital Disruption. Digital Transformation

Date: 6-7 September 2017

Opening Hours: 9am – 6pm

Venue: Suntec Singapore Convention & Exhibition Centre, Singapore

Website: <https://goo.gl/ZJNWDr>

Technology is changing business. No industry is immune from the torrent of the digital disruption, from B2C companies right through to industries like logistics, manufacturing to city governments. Business leaders need to understand the various applications of new technologies for their industry in order to lead their organisation through the culture and business model change required to ensure they survive and thrive in the new digital economy.

As Asia's leading event on commercial applications of emerging technologies, [TECHX Asia](#) has been created to help facilitate this revolution. Bringing together leading minds, entrepreneurs and innovators across the entire spectrum of emerging technologies, the event covers how IoT, drones, AI, 3D, robotics, data & blockchain are being applied these to a variety of use cases across industries such as factories, logistics, transport, utilities and cities.

Over 2 exciting days, over 180 C-Level executives will share case studies from across the world, ensuring you can learn from the best of the best, then you can spend time debating with them during the small-group roundtable sessions, so you have time to foster relationships and make new business contacts.

Whether you're an industry technologist or a technology specialist, we've got something for you.

Be a transformer. Be a disruptor. Be brave. [Be at TECHX.](#)
