

Cloud is an accepted part of most business strategies. Whilst many enterprises are at different stages of designing their digital transformation, [Cloud & DevOps World](#) will enable you to continue to build a roadmap tuned to your unique challenges and opportunities.

[Cloud & DevOps World](#), taking place this 12-14th June as part of TechXLR8, will give you the platform to rethink how these technologies can give you the advantage of agility, security, speed and flexibility. Better understand the business benefits, reduce overall costs, improve your operations and skill up your IT teams. Learn more about the event on our website here - <http://bit.ly/2EvWD0N>.

CHALLENGE THE EXPECTED. CHANGE THE FUTURE

Cloud is now a way of life for businesses; it is 'baked in' across all areas of technology, and is crucial for the development of IOT, Smart Cities, VR/AR, Apps, Enterprise IT and much more. Being part of TechXLR8, will give you access to all the industries cloud impacts with 8 leading technology events all under one roof.

Cloud & DevOps World will return to London as part of TechXLR8, London Tech Week's Festival of Technology. It will bring together the industry's leading technologists and innovators to discuss cloud innovation, DevOps, containers, serverless architecture, regulation, cloud management micro services and much more.
