MPLS SDN NFV World 2018 : 1,600 participants

Over the years, the MPLS SDN NFV World Congress attendance has grown. The 2018 edition surpassed the record number with 1,600 participants. As each year, the program lineup included keynote speakers from the service provider sector who conveyed their own valuable experiences in the areas of routing, 5G/Slicing, orchestration or intent based networks.

Representatives from **Google, Telefonica, AT&T, DT, Turk Telecom, Alibaba, Thomson Reuters, Softbank, ERNW, Microsoft, Reliance JIO, Orange, Colt, Telus, Rostelecom, Vodafone** and **Telia** were on hand to make the conference a fruitful and lively place of exchange.

Another aspect of the Congress is the presence of a set of renowned experts from normalization bodies, consultancy companies and technical staff from vendors.

In all, MPLS SDN NFV World remains a high-level event, leader in the current virtualization networking process landscape.

The **21st edition of the Congress** will stand in Paris from **09 to 12 April, 2019**.
