

Event name: RAN USA

Event date: 4 December 2017

Event location: DoubleTree by Hilton Hotel, San Jose, California

With a real world focus, RAN USA takes a “deep dive” approach to share real knowledge about how carriers are tackling the challenges of today and preparing for the future.

This is an event for the entire RAN community – from CTOs to engineers; from hardware to systems providers; from operational executives to research academics and industry analysts, there’s something for everyone at RAN USA.

RAN USA will give you a concise, coherent view of where the RAN industry is going, with detailed analysis of use cases, patterns and traffic levels and an honest assessment of latest initiatives.

Gain independent and clear advice from the experts. Avren is known for the quality of our events and giving visitors clear, unbiased information to inform their decisions.

This event is a showcase for innovations, with a spotlight on new developments that will shape the future of the RAN.
