

Join us for the 15th Annual IMS World Forum (25-26 April, London), the only industry event dedicated to IMS and advanced communications. Gain pivotal insight into the key topics that will help you improve your business:

- Network Virtualization: the operators' experience with deployment with sessions from SK Telecom, Telefonica, BT and Turk Telecom
- Service innovation: volte is heavily deployed, how else can operators maximize the use of IMS? Video lte and wifi, rich communication services, IoT, with sessions from Swisscom, MTS, and Telecom Italia
- 5G: what's next? With sessions from the GSMA, EE, and Samsung exploring the role that IMS will play in future networks
